Biomedical Journal

<https://www.sciencedirect.com/journal/biomedical-journal/about/aims-and-scope>

This journal is open source and free.

PubMed

<https://pubmed.ncbi.nlm.nih.gov/>

Search for articles. Some are free and able to be downloaded; others may need to be found through interlibrary loan.

Pub Med Central

<http://www.ncbi.nlm.nih.gov/pmc/>

Digital repository that archives any open access scholarly journals for biomedical and life sciences field. Articles in there are all full text and downloadable.

EBSCO Health

<https://www.ebsco.com/health-care>

Website with health care information for patients and providers. Research Solutions has searchable areas for articles and information.

Other Online Resources to Search:

Hathitrust:

<https://www.hathitrust.org/>

A repository that offers digitized content from many research libraries. Includes some older out of print items. Can do a full text search.

Google Scholar

<https://scholar.google.com/>

Provides a way to search for scholarly literature in many fields/topics. Some articles are PDF and able to be downloaded. Otherwise, an interlibrary loan through a public library may be another option for articles found through a search on this site.

Online Resources to Search through Ramsey County Library:

Academic Search Premier

Alt Health Watch

Health Source:Nursing/Academic Addition

Medline
